By Bríd Ní Luasaigh

**Project Name:** The Kerry Walls Project

**Location:** Glebe Carpark/Clovers Lane, Killarney

**GPS:** 52° 3' 34" N 9° 30' 26" W

**Artist Name:** Ad Wart

**Background:** Killarney Municipal District Office worked with The Walls Project to create this wrap-around mural which shows the many layers of Killarney's history through the depiction of the build and cultural heritage of the area. On the wrap-around section of the mural, the area's ecclesiastical heritage is represented by Innisfallen Island with the monastery's Romanesque doorway, the annals written by the monks by the hand and the quill and Muckross Abbey. The gable wall shows Killarney outside the estate walls as a market town with various cottage industries, having developed around Market, Brewery and Clovers Lane as signified by the signpost. Market Lane is represented by the milk churns loaded on the donkey and cart and the hen which also pay homage to the area's farming tradition. The cobblestones and the thatched cottages represent the original lanes and the Cooperage where coopers, like the one in the mural, made barrels for the storage of food, and beer which was made in Brewery Lane. The woman at the spinning wheel and the flax flowers represent the linen trade of the town and Clovers Lane where linen was produced from the flax plant.

**GPS:** 52° 16' 4" N 9° 42' 26" W

**Artist Name:** James Hayes

**Background:** Tralee Municipal District Office worked with Tralee Tidy Towns on this mural, which depicts a woman as she stops for a break, half-way up the Devil's Ladder, while hiking Carrauntoohill, and looks north over Hag's Glen, Lough Callee, Strickeen and out towards north Kerry. The mural highlights the importance of spending one's time living in the moment and occupying physical space, rather than spending it vicariously and unthinkingly occupying virtual and online spaces. This competition for our attention which exists today is alluded to in the mural name; a term which carries different connotations depending on the context in which it's used. There is mix of delight and irony associated with seeing this largescale, dramatic and scenic vista, in the stairwell; an otherwise mundane and utilitarian space.

**GPS:** 52° 15' 41" N 9° 42' 59" W

**Artist Name:** James Hayes

**Background:** Tralee Municipal District Office worked with Tralee Bay Wetlands on this mural, which showcases to visitors of Tralee Bay Wetlands the life of the inner wetlands and the Tralee Bay Special Area of Conservation. The first section of the mural *Beyond*, depicts the view to the West from the top of the Wetlands observation tower. The artist wanted to represent this because the extent of the expanse of natural environment can be somewhat lost on a visitor at ground-eye level so it raises people's vantage point briefly. It is also a taster of what can be seen from the top of the tower. *Wild Time* illustrates a piece from Robert Macfarlane's book *The Wild Places*, where he describes how time passes and is experienced when one is outdoors in nature. The final section *Within*, brings the viewer right in to the inner world of the wetlands, depicting up close the variety of things people can expect to see there and the variety of ways the place can be experienced.
